

Smart Cities Marketplace Initiative within the Citizen Focus Action Cluster:

“Citizen Control of Personal Data”

Second Workshop Agenda: April 14th, 2021, 10.00 to 11.30 CET

Aim of initiative: The purpose of the “Citizen Control of Personal Data” initiative within the Marketplace can be summed up as helping to build the conditions and relationships, whereby the citizen will be willing to share personal data with a city and with other actors in the data economy.

REGISTRATION is simply by eMail to: Shaun.Topham@eu-forum.org and **an invite to the session will be sent nearer the time.** (also the contact for further information.)

There is a document setting out our draft roadmap and outline plan, as a basis for dialogue. This is the “Initial Strategy and Roadmap” and it can be found at <https://smart-cities-marketplace.ec.europa.eu/event/road-new-dataville-first-workshop-citizen-control-personal-data-initiative> Notes from the launch and minutes and presentations from the first workshop can also be found on the MarketPlace site.

Short introduction. Shaun Topham. DataVaults project. Initiative Lead.

Presentation of the Auroral.eu project. Justina Bieliauskaite, “Architecture for Unified Regional and Open digital ecosystems for Smart Communities and wider Rural Areas Large scale application.”

Presentation of the Smart Cities MarketPlace’s “Urban Data Platforms” initiative, which we will closely follow in the coming months. **Graham Colclough,** The initiative Lead.

Presentation of recently published Digitranscope Project Book: “The Governance of Digitally-transformed Society”, along with its relevance to the Data Governance Act. **Marina Micheli,** EU JRC

“Links with the evolving Smart Cities Standards” John Ketchell. He represents ANEC (voice of consumers in Europe) at the Sector Forum of the three European Standardization Organizations (CEN, CENELEC and ETSI) on Smart Sustainable Cities & Communities (SF-SSCC).

Next Steps, including **setting up smaller groups,** covering topics such as Legal/Ethics, Governance, Standards, Urban Data Platforms and others, in order to feed into and from other aspects of the Smart Cities MarketPlace and other initiatives and projects.
