

Call for Observer Cities

Join the City Coordinators Group

The City Coordinators Group (CCG) is a tuck shop for active cities committed to accelerate their transition towards climate neutrality. It is an opportunity for knowledge-sharing, building new partnerships and voicing local needs at the EU level, while staying informed on relevant opportunities available for cities from the Scalable Cities community, the Covenant of Mayors and other City Networks.

The City Coordinators Group is a [Scalable Cities initiative](#), supported by CINEA and the European Commission.

The Group is mainly gathering Lighthouse and Fellow cities from the Horizon 2020 Smart Cities and Community Projects Group and is **now opening its door to observer cities**.

The CCG has three main objectives and priorities:

- **Knowledge-sharing**
- **Partnership Building** for new projects
- **Voicing Cities' needs** for recommendations documents that are presented to the European Commission

How does a normal CCG meeting work?

CCG is mainly meeting online, even if two in person meetings per year are foreseen. Sessions are usually interactive and participatory, including space for exchange and common brainstorming.

You can **join the CCG by filling in this form**: <https://forms.office.com/r/sb36ZBinud>

The contact person and CCG Coordinator is Sofia Corsi, sofia.corsi@energy-cities.eu
