1. Introduction and background

Scalable Cities City Coordinators Group is part of the service contract on 'Support for the Smart Cities and Communities Lighthouse project group'¹ for the European Climate, Infrastructure and Environment Executive Agency (CINEA). The service contract is implemented by a consortium of seven partners led by SPL Lyon Confluence, including Energy Cities, who is responsible for this initiative.

The European Commission has set out a clear aim for SCC projects to deploy wide-scale, innovative, replicable and integrated solutions in the areas of energy, transport, sustainability, inclusion, citizens, and ICT and to trigger large-scale economic investment with a view to transforming the market.

Scalable Cities Secretariat represents 18 Smart Cities and Community projects funded by Horizon 2020 and their 120 cities piloting innovative approaches and solutions to create more inclusive, resilient, and smart cities. Scalable Cities aims at accelerating and intensifying the collaboration among SCC projects and at promoting the replication of best practices and innovative technologies and services.

The **Scalable Cities City Coordinators Group** aims at facilitating the exchange, partnership and representation of cities' voices from the former Horizon 2020 SCC01 projects group.

2. What is the City Coordinators Group?

The City Coordinators Group (CCG) is the group of the 120 Lighthouse and Fellow cities that are part of the eighteen SCC projects. It is a Scalable Cities' initiative to promote the collaboration, partnership, knowledge sharing and joint voice representation across the eighteen Lighthouse projects and towards other initiatives (e.g. Covenant of Mayors, Net Zero Cities, cities' networks, and other Scalable Cities opportunities).

It has been established on demand of the majority of the Lighthouse Project Coordinators in 2020-2021 and is part of the EC's assignment to Scalable Cities Secretariat.

Specifically, the SC Secretariat is in charge of providing logistic support to this Group of Cities, therefore, to coordinate the organisation of the Group's meetings and the co-designing of an action plan that reflects the cities' needs and priorities.

Energy Cities, represented by Sofia Corsi, is Scalable Cities Coordinator of the City Coordinators Group.

2.1. Objectives

The City Coordinators Group aims to gather all city coordinators of SCC01 Projects Group and **create opportunities for networking, finding partners for new projects, exchanging best practices and opinions on how to address specific challenges; it is a space where to co-design shared approaches and find inspiration. On the other hand, it is meant to centralise the information and opportunities for cities in one place.**

¹ Contract Number: 300002306

The Group has three main objectives:

- **Knowledge Sharing** - Facilitating the **knowledge sharing and exchange**, through specific sessions, in partnership with the Cities' Expert Group and other Task Groups, mainly Task Group Replication.
- **Partnership Building** - Promoting the **networking and cooperation** among Lighthouse and Fellow cities, and other similar initiatives and projects, as well as other cities interested in knowledge sharing and replication of SCC01 measures.
- **Advocacy** - Capturing cities' voices and supporting the participatory drafting of papers and recommendations for EU institutions (e.g. European Mission for Climate Neutral and Smart Cities).

The Group's objectives are reflected in the Group's meeting.

2.2. Who can join

The City Coordinators Group (CCG) is addressing cities, both **Lighthouse and Fellow cities, from the 18 Horizon2020 SCC01 Projects Group**.

The Group is also open **to observer cities** from the CoM and/or other networks, interested in benefitting from the knowledge sharing and activities of the group.

2.3. Why joining

The City Coordinators Group is an active, resourceful Group that is providing cities with:

- Networking
- Knowledge sharing
- Active event participation and learning
- Project and solution co-development
- First access to information for additional grants of expert learning opportunities
- Direct access to financiers and VCS through a regionally dedicated roadshow
- Increased visibility in the EU space

2.4. Registration

Representatives of cities who wish to join the City Coordinators Group need to fill in [this form](#).

After registering they will receive a welcoming email from the CCG Coordinator, who will include their contact in the mailing list.

They will start receiving communications via email (usually one per month) and get access to the Drive City Group repository.

2.5. The CCG Drive Repository

Additionally, public events and general objectives of the CCG are advertised on the [Scalable Cities Secretariat's website](#).

3. Calendar of activities for 2022

The City Coordinators Group organises around 6 events per year, both in person and online.

In person events are identified in collaboration with the Board of Coordinators and the Scalable Cities Secretariat as key events for the Joint Scalable Cities community.

The timetable is not definitive but is subject to change depending on the priorities identified by the Scalable Cities community.

Date	Name and type of event	Objectives	Status
27 January 2022	CCG – TG Replication event on Systemic Changes of Governance - online	Objective 1 and 3 - Knowledge Sharing, Voicing Cities Needs	realised
7h April 2022	CCG - TG Replication Systemic Changes in Governance – online	Objective 1 and 3 - Knowledge Sharing, Voicing Cities Needs	confirmed
20-22 April 2022	Scalable Cities presentation - Systemic Changes in Governance – <i>workshop</i> – CCG – <i>in-person</i>	Objective 1 and 3 - Knowledge Sharing, Voicing Cities Needs	confirmed
1-2 June 2022	Partnership Building and presentation of Action Grant and Knowledge Sharing, topic TBD. <i>In person</i> - Joint SCC event Utrecht	Objective 1 and 2 - Knowledge Sharing, Partnership Building	confirmed
November 2022	Smart City Expo – Joint Scalable Cities event - <i>in person</i> , topic TBD	Objective 1 and 2 - Knowledge Sharing, Partnership Building – Assessment of Needs	confirmed
December 2022	Over 1 year of CCG – Assessment meeting online	TBC	Not confirmed

4. Collaborations

4.1. Collaboration with the Task Group ‘Replication’

The City Coordinators Group closely collaborates with the Task Group on ‘Replication’. Concretely, the CCG is supporting Task group Replication in:

- Share of Fellow City replication experiences and results, focusing on process drivers for local innovation ecosystems (Connectedness-Capacity building-Capital), through presentations in TG Replication (once or twice a year with break-out sessions in support of interaction).
- Promoting opportunities for cities;
- Sharing information about relevant events;
- Organising joint events aimed at presenting successful processes with the final goal at replication.

4.2. Collaboration with Scalable Cities

As Part of the Scalable Cities Secretariat, the City Coordinators Group works closely with the other initiatives promoted by the Secretariat, namely the [Action Grant](#), the [roadshow](#), the [Experts Group](#), the Secretariat’s joint events, and the other Task Groups and [Board of Coordinators](#). In other words, it is responsible for centralising relevant information and opportunities for the cities in one place.

4.3. Collaboration with other initiatives

The City Coordinators Group is also collaborating with other initiatives promoted at the EU level and city networks, namely the Covenant of Mayors, the Smart City Marketplace, the URBACT programme,

the European City Facility, NetZeroCities and the Mission for Climate Neutral and Smart Cities, and other city networks (Energy Cities, etc).

The CCG collaborates with these other initiatives through different forms, which include collaboration for co-organisation of joint events, sharing of opportunities (e.g. funding opportunities, calls for initiatives, events).

5. Financial contribution for travel costs

Fellow cities and Lighthouse cities from ended SCC01 projects can request a Scalable Cities travel contribution to participate in up to two City Coordinators Group physical events per year.

[Form](#) to request Scalable Cities travel contribution.

The SC Secretariat will be announcing which events are eligible for this financial aid. Interested representatives can apply for the support via an online survey shared by the SC Secretariat.

Eligibility criteria:

- The applicant must represent a Fellow city or Lighthouse city from an ended SCC01 project.
- Financial contribution can be requested for up to 2 trips per city per year.
- The applicant must be attending only physical City Coordinators Group events. Only events previously announced by the SC Secretariat are eligible.

The available budget for travel contribution is limited. Therefore, if the number of eligible applicants exceeds the number of cities that can be supported for one event, the following selection criteria will apply in cascading mode:

- Fellow Cities will receive priority over Lighthouse cities.
- Cities that haven't benefited from this financial contribution in previous events will be prioritised over cities that have already received it in the past.
- Cities that have not used this financial contribution in the same year will be prioritised over cities that have already received this funding for another event during the same year.

In case the abovementioned criteria were not sufficient to select which are the supported cities for one event, additional criteria such as the accumulated amount of CCG financial contribution received over time will be also taken into consideration, as well as project-related elements such as the degree of implementation of solutions in Follower cities².

The maximum amounts that city representatives can apply for are the following:

- **International Travel expenses:** covering the inbound and outbound trips from the place of work or residence to the venue of the event (international travel + local means of transport to the hotel or venue). International trips need to happen within the consecutive days of the event (otherwise, providing a written justification that will be assessed by SC Secretariat)

² These criteria will be subject to review if over years they are insufficient to support a fair selection of cities to receive CCG contribution.

- **Accommodation expenses:** covering the costs of hotel reservations for the number of nights of the duration of the event + 1 (maximum).

The total amount to be financed per trip by SC Secretariat has a limit of 450 EUR.

City representatives can participate in up to 2 physical events per year and receive a total annual financial contribution of max of 900 EUR per person and institution.

Guidance to submit travel expenses:

In order to reimburse travel expenses, the city representative will need to send the following to **Scalablecities@ait.ac.at** clearly stating the subject of their e-mail “**Travel Expenses**” no later than 30 days after the final day of the meeting:

- Summary document stating all travel expenses to be reimbursed, according to conditions stated above. Participants need to provide **Form 1** (see Annex I).
- Original supporting documents showing the class of travel used (business/economy), the time of travel and the amount paid. Paper documents can be scanned and sent in PDF format by e-mail.
 - This involves tickets and invoices. In the case of online bookings, this includes both the *printout of the electronic reservation and boarding cards for the outward journey*.
- Government officials will need to provide a declaration on their honour that they are not receiving a similar allowance from their institution or another European institution or project for the same visit. A draft template is provided as **Form 2** (see Annex II).
- All reimbursements will be made to one and same bank account per representative and trip.
- Reimbursements of the costs of government officials shall be paid into an account in the name of the public body. In the absence of any derogation from this public body, government officials need to provide proof that the bank account provided in Form 1 belongs to the city or public body with a bank statement or a signed statement from the city or public body.

***Disclaimer:** The SC Secretariat, the AIT, and the European Commission shall not be liable for any material, non-material or physical damage suffered by city representatives or those responsible for accompanying a disabled expert in the course of their journey to or stay in the place where the meeting is held, unless such harm is directly attributable to these organizations.*
