

Goals

The role of Scalable Cities is to **identify and promote solutions and business models** that can be **scaled up and replicated** across Europe and lead to measurable outcomes such as **new jobs** and **energy savings**.

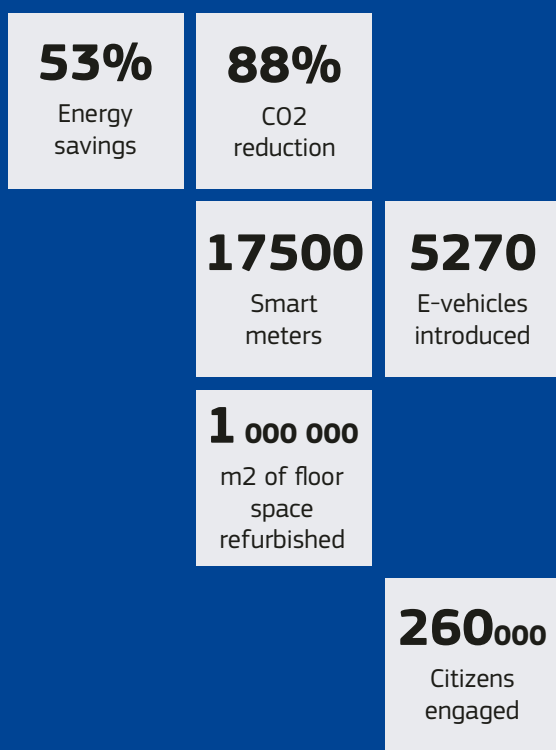

Joint effort

In July 2021 representatives from **all 18 projects** signed a joint document, a **Manifesto**, signaling a common set of objectives by working together **to deliver higher impacts and benefits** to the challenges that EU cities are facing to combat the effects of climate change and achieve **climate neutrality by 2050**.
