## Editorial

Join us for the world leading event for cities from 15-17 November in Barcelona.

This year EU funded smart city projects and initiatives will take the center stage at the Smart City Expo World Congress: a stand presenting nearly 30 projects and initiatives as well as a booth programme and agora sessions on the main stages of the fair covering topics from the state of European smart cities to how to reach climate neutrality in cities by 2030.

But our participation at the Smart City Expo World Congress is not only about showcasing existing projects and their findings but also offers visitors the opportunity to further develop project ideas and explore funding opportunities. Use the Smart Cities Marketplace Matchmaking to make your project idea a reality.

Your friends from the Smart Cities Marketplace & Scalable Cities

## Smart City Initiatives

### Together at the Smart City Expo World Congress 2022 in Barcelona

#### European Smart Cities and Communities

We are thrilled to announce a joint participation of 30 European initiatives and projects under the umbrella of the European Commission to the Smart City Expo World Congress 2022 taking place between 15 and 17 November in Barcelona.
