

# Scalable Cities

## CCG online session - May 21, 10:00-10:45 CET

### Insights from **Covenant of Mayors** campaign 'The Cities Heat Detox'

As part of our ongoing efforts to support CCG members in their climate neutrality journey, this session will spotlight the Covenant of Mayors (CoM) campaign "[The Cities Heat Detox](#)." The campaign focuses on helping cities move away from fossil-fuelled heating and accelerate the shift toward clean, efficient, and resilient heating systems. Together, we'll explore how CoM cities embrace decarbonised solutions and strengthen collaboration to overcome technical, financial, and governance challenges.

The session will feature insights from the CoM campaign manager Allison Le Corre, so feel free to come prepared with your questions!
